- HTML
- CSS
- JAVASCRIPT

Back End

- JAVA, PHP

Database System

- My SQL

Development Tool

- Apache NetBeans IDE
- Visual Studio
- Visual Studio Code
- IntelliJ IDEA
- Android Studio

PROFILE

I'm looking for a Software Engineering internship to expand my industry knowledge and gain practical experience. My primary goals for this internship are to gain real-world exposure, refine my technical skills under the guidance of experienced professionals, and contribute meaningfully to the organization's IT and development objectives.

PROJECT EXPERIENCE

Gym Management System

- Developed a web-based Gym Management System using PHP, MySQL, HTML, CSS, and JavaScript. The system includes role-based access for admins, trainers, and members, with features for managing memberships, payments, and workout schedules. Integrated a QR code-based attendance system for secure and contactless check-ins.
- [View GitHub](#)

Restaurant Management System

- Developed a dynamic restaurant website using HTML, CSS, PHP, MySQL, and JavaScript with key features including online table reservations and food pre-ordering functionality.
- [View GitHub](#)

HR System

- Developed a Java-based HR and Admin system using JFrames and Object-Oriented Programming (OOP) principles to simplify daily administrative tasks.
- [View GitHub](#)

SOFT SKILLS

- Communication
- Problem Solving
- Teamwork
- Time Management
